## Mechanics' Tools,

HARDWARE.

MACHINERY.

A Fine Stock of

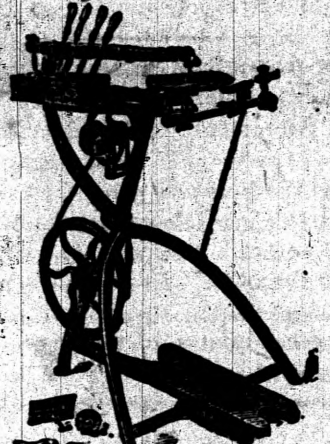

CHRISTMAS GOODS.

OSBORN & ALEXANDER.

628 Market Street,

Opposite Palace Hotel,

SAN FRANCISCO.

The Lester-Combined Scroll and Circular Saw, Lathe and Bore.

We have a large assortment of the finest scroll-power scroll saws, from \$4.50 to \$5.50, adapted to the most delicate and medium heavy work in fret and scroll sawing, lathe, etc., in wood, ivory, shell and bone.

The Borelka, a perfect and modest lathe, with turn wood or metal 5 by 15 inches; adjusted to the wants of dentists, jewelers, machinists, and an assortment of the low price of \$15.

A fine present for boys or girls, ladies or gentlemen.

A fine assortment of beautiful designs and fancy woods, embracing walnut, white oak, ebony, tulip, etc., adapted to fret and scroll sawing, ornamental work, etc.

Our House is the Great Depot

On this coast for all the tools, machines and material in fret and scroll sawing, ornamental work and amusements' supplies.

Christmas Gifts

in great variety, embracing table and pocket cutlery, toy cannons, boys' and girls' gun sets, elegant books on architecture and carpentry, sewing tools in sets, etc.; also a fine lot of household hardware, such as filing machines, wringers, family scales, meat-cutters, carving knives and forks, etc.

In various portions of our country, ice-yacht clubs are well supported, their membership, as a rule, consisting of gentlemen of the highest respectability.

Albany, Troy, and other places on the Hudson, evince great interest in the fascinating pastime. In the distant West, also, fine organizations are in successful operation.

A woman, in the hospital in Florence has a strange history. She entered the Italian army in order to save her brother, a married man, from military service.

She served with distinction during the war with Austria and received a medal for bravery in the field. When these facts were known to King Humbert he presented her with the cross of his order, and gave directions for her discharge on an annual pension of 300 francs.

A gentleman not extremely given to piety was dismayed by being asked to say grace at a strange table. To refuse and explain would be embarrassing; to comply would be equally so; but he chose the latter, and started off briskly enough with, "Oh, Lord, bless this table."

Just here, being unused to the business, he nearly broke down, but by a gigantic effort pulled through with, "World without end. Yours, respectfully, amen."

An extravagance into which women are going in many instances is in the direction of buttons. Many have buttons richly painted, and others have solid gold ones made. Many of these latter are decorated in colored enamels. Worth has introduced wooden buttons for heavy suits and cloth wraps. They are in walnut or lighter wood.

A Southern girl, who has seen better days as a member of one of the first families of Virginia, is now earning her living by plying an awl at the shoemaker's bench in Petersburg. She served an apprenticeship of four years, and it is said can now turn out as good shoes as any man in the business who has not had more experience.

A sensible writer advises those who would enjoy good eating to keep good natured. "For," says he, "an angry man can't tell whether he is eating broiled oysters or a stewed umbrella."

A Peoria woman sneezed her jaw out of place lately, and the married men of that place have been buying snuff ever since.

Simple pity isn't much better to a paragon than an insult; but to pity him with a five dollar bill is business.

Job has been marked down in history as the patient man. The fact is that at one time he was just boiling over.

Mr. Gould's millions now crowd close to those of Vanderbilt. He is a man of finer texture than the old Commodore's son. He doesn't run to fine houses, costly stables, and blooded steeds. At night, when he dismisses his operators from the telegraph office in his own house in Fifth Avenue, and enters up in a little book the telegraphic reports of the receipts of the various railroads which he owns, he does not go to a club to carouse, to a banquet to steam up with champagne, or to a theater; he retires to the recess of a peaceful library, and, with his young sons about him, reads the Latin classics, the world for getting, but not the world forgetting—by a large majority. The next morning early he has the telegraph doing lightning service, and he is sending an electric shock through Wall Street as soon as the bulls and the bears come into that field for pasture. Mr. Gould is a liberal man, although when he makes a bequest he does not have the information written in manifold and sent to all the newspapers. The first news New York had of his gift to the Memphis sufferers of \$5,000 came from Memphis, as did the news of the second gift of \$5,000.

Mr. Gould, being a small man of little physical prowess, is naturally not disposed to put himself recklessly in the way of the horns of the bulls and the claws of the bears. There are some men in Wall Street, as Mr. Gould has reason to know, who wish to resent their losses with their fists, and are disposed to follow Major Selover's example and dispatch him bodily down into a convenient area. Accordingly, Mr. Gould keeps his office guarded by a stout Irishman, who prevents the intrusion of visitors, and he has usually a private way to get onto the street. He has, too, it is said, a big Italian book-keeper who accompanies him on many of his business trips about town, and stands ready to protect his millionaire employer.

A Comfortable Cabinet Council.

We are accustomed to think of Cabinet Councils as meetings of much solemnity and decorum. All the habits of our day are in favor of the assumption that when Ministers meet in Downing street their proceedings are marked by much formality, and some dignity. I have been suggested by Mr. Arthur Helps that the utility of Councils of all kinds depends much upon their comfort, and that fatigue, amongst other things, may sometimes account for much in the result of their deliberations. Perhaps the most comfortable Cabinet Council upon record is that which Walpole describes as having been held in Pitt's bedroom when Pitt had the gout. The great Minister at such times used to have the bedclothes piled upon him, but to have no fire in the room. One day he summoned the Duke of New Castle, and read him a lecture. The Duke was "as usual," Walpole says, "afraid of catching cold. He first sat down on Mrs. Pitt's bed, as the warmest place; then threw up his legs into it as he got colder. The lecture, unluckily continuing a considerable time, the Duke at length fairly lodged himself under Mrs. Pitt's bedclothes. A person from whom I had the story, suddenly going in saw the two Ministers in bed, at the two ends of the room, while Pitt's long nose and black beard, unabated for some time, added to the grotesque nature of the scene."

Physicians have for a long time known that common table salt is an efficient aperient in ordinary cases of constipation. In a lecture on a case of nervous affection, Dr. Weir Mitchell, of Philadelphia, said that he had recommended the patient to take each morning on rising a tumblerful of water-cold, to prevent constipation—in which was dissolved a teaspoonful of table salt.

"This simple aperient," the doctor added, "I frequently employ in cases of constipation, and generally find it efficient. There is great advantage in starting the bowels and in keeping them in a soluble condition, particularly in cases of nervous disorder in women, as it sometimes clears up obscure points in the case, and at all events eliminates one source of error."

Waggs went to the station of one of our railroads the other evening, and, finding the seats all occupied, said, in a loud tone: "Why this car isn't going!" Of course these words caused a general stampede, and Waggs took the best seat. The train soon moved off. In the midst of the indignation the wag was questioned. "You said this car wasn't going?" "Well it wasn't then," replied Waggs, "but it is now."

Job has been marked down in history as the patient man. The fact is that at one time he was just boiling over.

Mr. Gould's millions now crowd close to those of Vanderbilt. He is a man of finer texture than the old Commodore's son. He doesn't run to fine houses, costly stables, and blooded steeds. At night, when he dismisses his operators from the telegraph office in his own house in Fifth Avenue, and enters up in a little book the telegraphic reports of the receipts of the various railroads which he owns, he does not go to a club to carouse, to a banquet to steam up with champagne, or to a theater; he retires to the recess of a peaceful library, and, with his young sons about him, reads the Latin classics, the world for getting, but not the world forgetting—by a large majority. The next morning early he has the telegraph doing lightning service, and he is sending an electric shock through Wall Street as soon as the bulls and the bears come into that field for pasture. A Comfortable Cabinet Council.

# THE CHRONICLE.

BODIE, JANUARY 17, 1880.

## County Official Press.

The CHRONICLE Office is on the second floor of "Goodman's Building," east side of Main street, between Standard Avenue and Green street.

JOHN FRANKLIN, Job printing of the street descriptions will be furnished at this office at Sacramento prices.

## LOCAL INTELLIGENCE.

**THE PIONEERS.**—The Pioneers held a meeting on Tuesday evening last, and elected Mrs. Gertrude Owens and Richard Barlow active members. The Committee on Ball and Banquet reported that the expense of the Ball over expense was sufficient to pay for the Banquet on January 1st; also reported the award of prizes. On motion of R. M. Folger, it was voted to give their second Banquet on Monday, February 23d, and the following Committee was appointed: H. B. Davidson, L. Richardson and R. M. Folger, President; Jackson presented to Miss May Temple the first prize, Society, a jewel casket; second, Society, jewel casket to Miss Clara Renrose; third, L. Hollander's, silver-plated table castor, to Miss Lotta Sumner; and H. M. Harrington, BODIE CHRONICLE, a steel engraving. The meeting was one of the most interesting yet held.

**ANOTHER BANQUET.**—In commemoration of Washington's Birthday, the Pacific Coast Pioneers will give their second Banquet on Monday evening, February 23d, at the Grand Central Hotel. The dishes will be uncovered at 9 o'clock sharp. The number of tickets is limited, and will be issued to members and friends upon application to the Committee, and are not transferable. The programme to be published on Saturday, February 17th, will embrace music, singing, recitations, etc., and we assure the members and guests that it will be equal, if not superior, to their first banquet.

**ACCIDENT.**—James Madden, a miner at the Bodie, while working in the incline on Thursday night, was struck on the back and head by a couple of falling rocks, and in stepping forward his foot caught in the sill, when a straight edge, accidentally slid down and struck him on the calf of the leg. It commenced swelling and it was with difficulty that his gum boot could be removed. His injuries were not serious and he will resume work in a day or two.

**THE NEW COUNTY.**—The News appears to be in earnest in regard to organizing a new county, to be made from the Bodie Mining District. It has considerable to say about road tax. Don't it know that there is no road tax in incorporated towns. But it will never live to chronicle that a new county has been made out of Bodie, even if it should survive a generation.

**COUNTY WARRANTS.**—The following warrants will be paid on presentation: All on County Hospital, Current Expenses, and Contingent Funds. On General Fund, all registered prior to May 14th 1879. On County Road Fund, all registered to November 6th, 1879 including Nos. 1972, 1973, 1974 and 1980. See Notice of Treasurer in another column.

**CHURCH.**—Our contemporaries have considerable to say about Bodie having no church. It has two churches—Protestant and Catholic. We have all ways supposed that a church was one thing, and a church edifice was another. A church may exist in Bodie, even if the congregation worship in the open air.

**NEW RESTAURANT.**—On Tuesday next the Champion Hotel will be reopened as the Champion Saloon & Chop House, under the management of Mr. Walsh, formerly of the Nevada Restaurant, and Thomas H. Smith, lately of the Cabinet Saloon. The reputation enjoyed by the Nevada Restaurant is a guarantee of the new establishment.

**IN THE SAME BOAT.**—Our contemporaries are in the same boat, in one particular, but each thinks it is "too good for anything" on the other. They are each handicapped with a mortgage. We only mention this because they talk too loud.

**TOWN SITE.**—Superior Judge R. M. Briggs, on Tuesday last, entered at the United States Land Office the town site of Bodie. For survey, see advertisement in another column.

**BULKY MILL.**—Steam was gotten up on Thursday and yesterday the engine was started for the first time. The mill will not be in running order much before February 1st.

**GONE.**—The snow is fast disappearing from our streets, and sleighing is becoming poor.

**COURT COMMISSIONER.**—Mrs. Stratton has been appointed Superior Court Commissioner. A good appointment.

**HOW COMPANIES.**—Two how companies have been organized this week. Neptune No 1 elected the following officers: Foreman, Pat Holland; First Assistant, Frank Eardley; Second Assistant, Thomas Gunn; President, R. L. Peterson; Treasurer, J. J. Gunn; Secretary, H. F. Sanford. Champion No 1 officers are, thus far, President, Thomas F. Lansing; Secretary, C. W. Sullivan. It appears there is no limit to membership—way up in the hundreds, we suppose.

**BODIE TYPOGRAPHICAL UNION.**—The composers of our contemporaries have organized a Union with the following officers: President, C. S. Hayes; Vice President, John J. Curry; Financial Secretary, Joseph Weston; Recording Secretary, Joseph Weston; Treasurer, E. S. Wilson. If ever printers needed mutual protection it is in Bodie. We doubt if any other town can equal it, in nonpayment of composers.

**GROWL! GROWL!**—Our contemporaries are daily growing at each other, and divulging family secrets. It is a growl howl from their composers. The Typographical Union will turn a screw on them that will be difficult for them to avoid—if the Union lives up to its by-laws.

**SHERIFF'S SETTLEMENT.**—On the 9th instant, Sheriff Taylor paid into the Treasury the sum of \$22,822 87:

To State Fund.....	\$1,610 48
To General Fund.....	5,654 43
To Salary Fund.....	2,177 78
To Current Expense Fund.....	3,263 08
To Property Tax Hospital Fund.....	1,411 89
To Per Capita Hospital Fund.....	86 90
To County Road Fund.....	1,594 74
To County School Fund.....	1,287 74
To Contingent Expense Fund.....	1,058 57
To Interest on Road Fund.....	1,245 57
To Auditor's Commission Fund.....	188 09
<b>Total.....</b>	<b>\$22,822 87</b>

**TOO MANY.**—The Free Press says there are too many men in Bodie. Why not continue and say also too many papers? The business men of Bodie are tiring of selling goods and taking their pay in advertising, because they can't get the coin. Some of our contemporaries will find this wholesome truth outside fine morning.

**SURPRISE PARTY.**—On Thursday evening Col. L. A. LaGrange and wife were favored with a musical party—a surprise. The evening was pleasantly passed with instrumental and vocal music, recitations, etc. We had the good fortune to be present, but not among the surprises.

**MUSICAL.**—A musical treat is in store for the people of Bodie, on the 6th of February, under the management of A. Patroni. The company will comprise between fifteen and twenty of the best talent to be found in Bodie. It cannot be too highly commended to the public.

**A POOR OPINION.**—The News must have a poor opinion of the intelligence of its readers, if it thinks they can be imposed upon by its so-called telegrams. A more barefaced attempt at imposition has never come to our notice.

**BULLION SHIPMENT.**—On Monday, the Bodie shipped through Wells, Fargo & Co. bars Nos. 149 and 150, amounting to \$13,329; Standard, bars 180 and 181, \$41,680 48; Noonday, bars Nos. 1 and 2, \$8,000.

**ELECTED.**—Bodie Lodge A. O. U. W. has elected Dr. M. J. Roe as Representative to the Grand Lodge, to meet at Sacramento on February 22d.

**PAY UP.**—Delinquent taxpayers must pay their taxes to Sheriff Taylor before Saturday, 31st, or heavy costs will be added.

**NEW BOILER.**—A mammoth boiler and other machinery for the South Bodie, arrived this morning.

**ICE SUPPLY.**—Parties are engaged in cutting ice from the Standard Mill reservoir.

**TO PIONEERS—INFORMATION WANTED.**—The Director of the United States Geological Survey, in conjunction with the Superintendent of the (tenth) Census, has made arrangements for the preparation of a series of reports on the mining industry of the Pacific Coast. The history of the discovery and development of the metal deposits east of the Sierra will be carefully traced, and it is desired to obtain full particulars in regard to the early placer diggings at the mouth of Gold Canyon, near the Carson river, Western Utah. These diggings were discovered in the Spring of the year 1850, and it is hoped that some of the pioneers crossing the plains in that year may be able to give the information desired. The name of the discoverer, and the manner in which the discovery was made, are points of especial interest. Any assistance given will be gratefully acknowledged in the records and publications of the Geological Survey. Communications on this subject may be addressed to Eliot Lord, Box 276, Virginia City, Nevada. Sacramento Record Union.

**FINE CONFECTIONARY.**—Mrs. Swan has opened a confectionery store in Abbott's building, on Main street, between Standard Avenue and Mill street. She intends to keep a fresh supply at all times and at reasonable prices.

# LEGISLATIVE.

## SENATE.

The following bills of general interest have been introduced:

By JOHNSON—An Act to compel the retraction of false and defamatory articles in newspapers and publications. This bill is not copied of the bill introduced by Johnson in the Assembly at the last session, and which attracted so much attention.

By ENOS—Relative to testimony in criminal cases; also, to secure to all persons freedom in the selection of professional occupations; also, to prohibit and abolish the fee system; also, to punish bribery. Relating to trade-marks filed in the Secretary of State's office.

A bill to prohibit savings banks from charging for searching titles and from charging attorneys' fees.

By ENOS providing for the eligibility of women for any elective office.

By ENOS, concerning the Lien Law. Provides for the County Recorder keeping a "Lien Register" in which the Recorder must, on application of the laborer or person claiming the lien, enter the lien, and charge therefor the sum of 25 cents. The Recorder shall then by postal card, notify the owner of the realty of such entry, and also file a transcript of the same in the Supreme Court, without additional charge to the claimant.

A bill to amend the act relating to the Sheriff. It is alleged that the whole expense for the enforcement of the lien does not exceed \$25.

## ASSEMBLY.

An Act for the protection of druggists and physicians. The bill makes it a misdemeanor for physicians to receive anything in the way of commission or bonus on prescription filled by any druggist.

An Act to amend the laws on public works. In relation to the issuance of licenses to aliens—An Act to amend the Political Code in reference to licenses. (Prohibits the issuance of licenses to any but citizens, or those eligible to become such.)

WASSON, of Mono, introduced a resolution providing that the Committee on Mines be instructed to prepare a bill for a thorough report on the mineral resources of the State, of every kind, for the benefit of capitalists, miners and prospectors.

Also, for the protection of miners lived by instructing the Committee on Mines and Mining to prepare a bill providing for the inspection of mines and mining machinery.

Also, instructing the same committee to thank John Mackey for his mineral display at the Paris Exposition; also, inviting Hanks to make a report of the knowledge gained there.

Amending Ineligibility Act.

Authorizing Supervisors of counties to appoint Commissioners to examine engines.

Amending section 266 and other sections of the Political Code, in relation to the compensation of members of the Legislature and attaches.

Relating to the calling of juries.

Mechanics Lien Law.

Authorizing County Treasurers to accept donations to County Treasuries.

An Act to define and limit the rights of land owners in the State of California.

To limit and regulate the sale of mining and other stocks in this State.

An Act to secure to the children of this State an education that will tend to promote a love of country and secure a republican form of government forever. (Mandates certain compulsory. Provides that all children must attend some school, if parents are unable or unwilling, provides for the means of educating the children by the State.)

An Act to define the rights of aliens.

An Act relating to pledges made before political conventions.

By Mr. YARD—An Act to provide for the exemption of certain property from forced sale for taxes.

By Mr. CORCORAN—An Act to remove the State Normal School from its present location and make it part of the State University.

To repeal the "Goodwin" Act, which allowed compensation to prisoners in the State Prison.

An Act relating to the mortgage. (Providing that the foreclosures of any mortgage shall discharge the debt in full for the mortgagee, and that foreclosures shall be made by order of Court by the attorney, and costs equally charged between the parties.)

An Act to provide for the rights of the citizens of the State. (Prohibits persons who are ineligible to become citizens from carrying on any kind of business.)

Also, an Act to prohibit and abolish the fee system. An Act to secure to all persons freedom in the selection of an occupation, profession or employment.

To relate to the title to real estate. (Provides for limiting future titles of agricultural land to 325 acres, and grazing lands to 640 acres, and requiring certificates to be attached to titles by the purchaser certifying to the fact that the said purchaser is not the owner of more than the above amount.)

An Act to provide for removing officers or mining corporations by the shareholders holding a majority of the shares of stock thereof and electing other officers.

An Act to prohibit the employment of Chinese or Mongolians by corporations. It provides that any violation shall be punished by forfeiture of charter.

Mr. Walker's bill for the licensing of and against the evils arising from the sale of intoxicating liquors. To obtain licenses must be by petition of majority of voters of township or election precinct. Imposes a fine for selling liquors to minors or intoxicated persons.

Any person causing another to become intoxicated shall be liable for and compelled to pay a reasonable compensation to any person who may take charge of and provide for such intoxicated person, and four dollars per day in addition thereto for every day such intoxicated person shall be kept, in consequence of such intoxication, which shall be recovered in an action of debt. Provision is also made for redress by action against persons who thus cause drunkenness of husband, wife, father, child, or guardian, etc.

Bennett introduced a bill which provides for the collection, in addition to taxes due on the delinquent list and five per cent. added thereto to cover the cost of publication; also fifty cents on each assessment of real estate or personal property, one-half of which shall go to the Collector, in full, for preparing the list.

An act to compel stock companies to sell their stock to the highest bidder when advertised for sale.

To allow corporations, formed under the laws of other states and Congress, to carry on business on the same basis as corporations formed under this State.

Relating to the enforcement of judgments. An eight hour law.

There are very few old men on the Pacific Coast, and there are few places on earth, where the minds of men are kept on a more perpetual strain, than here. Friend, you need rest. Take it—Go on a visit somewhere, anywhere, only Go, and take with you a few packages of Emil Freese's Hamburg Tea.

It's soothing, strengthening and invigorating, purifies the blood, improves digestion, cures restlessness, insures refreshing sleep and repairs the evil effects of overwork; as no other medicine can. Follow our advice and you may live to see a good old age.

# THE BODIE MINES.

## HARRINGTON.

L. A. LaGrange, Supt.

The tunnel has been driven 650 feet, cutting 6 ledges, the narrowest being three inches, and the widest, called the General LaGrange, 40 feet wide. On the 1st of December, a winze was commenced 80 feet from the face of the tunnel to cut the LaGrange ledge at a depth of 150 feet below the bed of the tunnel at a depth of 60 feet in the winze. A new formation was recently cut—a ledge 18 inches wide, pitching east—which was not discovered in the tunnel. This ledge pitching to the east promises to prove the correctness of Superintendent LaGrange's theory, that the six ledges cut in the tunnel are merely the branches of an immense ore-tree, as it were, which the winze may cut when the proper depth is attained. The prospects of this becoming a valuable mine in the near future are very flattering, and the Superintendent has received a telegram from the Company in New York to push the work with all the energy at his command.

## SOUTH BULWER.

John C. Turner, Supt.

Sinking the main shaft and making good progress. It is down 470 feet, the bottom being in good working ground. It has been substantially timbered throughout. It will be sent down to the 560-level, where a station will be cut out and a drift started on the ledge. Winze No. 1, south drift on the 350-foot level, has attained a depth of 80 feet. The ledge in the bottom is 4 feet wide of good ore. The ledge has continued to improve in this winze from the time it was first started on the 350-foot level, and appearances indicate that a large body of good ore will be opened between this point and the 550-foot level. The machinery and everything about the mine is in good running order. The works have been painted and present quite an imposing appearance from town.

## MONO.

Aug. H. Whiting, Supt.

No sinking has been done this week owing to the great influx of water, but the time has been utilized in strengthening the shaft, that the wet condition of the ground should not throw the timbering out of plumb. The pumps are working splendidly under the personal supervision of Alex. Dunn, the Chief Engineer of the Mono and Bodie works who has watched the workings of the Mono night and day until he has placed it in as good running order as it can possibly be. The pumps are throwing an immense volume of water, and it is thought the water will be lowered sufficiently to permit sinking to commence to-day or to-morrow. The shaft is substantially timbered to a depth of 535 feet.

## SOUTH NOONDAY.

J. C. Turner, Supt.

Sinking is still continued in the main shaft, which has reached a depth of 132 feet, and is in good working ground. When it reaches the 150 level a crosscut will be run to the ledge which will be cut about 20 feet east of the shaft. The shaft will be continued down for the purpose of opening deeper levels and cutting the headback ledge, which may be cut in the shaft at a depth of 200 feet.

## MOUNTAIN.

Russell F. Lord, Supt.

The south drift from the new shaft is in a distance of 61 feet, and the ledge is improving in quality. The west crosscut on the 500 foot level is in 258 feet, and the indications are very favorable. The north drift on the 675 foot level is in 66 feet. At this point the ledge is looking unusually good. Everything about the mine is in tip-top order and working satisfactorily.

## CHAMPION.

L. J. Hancock, Supt.

Stations have been cut out, and tanks put in at the 250 and 400-levels, preparatory to putting in the new pumps. The foundation for the machinery is rapidly approaching completion, the coping being nearly ready to put in place.

## GOODENAW.

Thomas Euckler, Supt.

The shaft is down 545 feet in favorable working ground. The winze is down 80 feet below the 450 level. Everything about the mine is working well, and the prospects are most encouraging.

## BLACKHAWK.

E. B. Ferguson, Supt.

The shaft is down 570 feet—a progress of 12 feet for the week. The bottom is gradually changing for the better. The drifts at bottom of winze are being pushed ahead, but there is no material change to notice.

## QUEEN BEE.

J. C. Turner Supt.

Still crosscutting east on the 400 foot level, and 94 feet, the face being in a favorable looking formation, carrying strata of good quartz, with every indication of cutting the vein within a few feet.

**REASONING.**—Rev. G. B. Hinkle will hold divine services in Odd Fellows' Hall, over Page, Wheaton & Co's. store to-morrow at 11 o'clock A. M. and 7 o'clock P. M. Sabbath School at 2 P. M. All are cordially invited to attend.

## MARRIAGES.

**HAWTHORNE-KENNEDY.**—In Bodie, January 15, by Rev. G. B. Hinkle, W. W. Hawthorne & A. daughter of Thomas Kennedy, all of this place.

Emile de Girardin, the Paris journalist, killed Armand Carrel, a talented and popular editor, in a duel which grew out of a newspaper quarrel, in his thirty-fourth year. He then resolved never to accept another challenge, and he never did, although an irate editor slapped his mouth at the opera some time afterward.

Major Wm. Sweet, Chief of the Internal Revenue Division in the office of the First Controller of the Treasury Department, has been dismissed for extravagant expenditure while travelling on Government account. This should be a warning to government officials, who put on more airs than "old Grant," when travelling.

It is rumored that J. B. Haggin is about to purchase the ranches of General E. F. Beale in Kern county. Should Mr. Haggin effect this purchase he will own nearly 750,000 acres of land in that county. How much of Kern county will there be left for outsiders?

The first marriage this year in this State was probably the one celebrated in Santa Rosa on New Year's morning just before daylight.

Senator Lamar, of Mississippi, was struck with paralysis on Sunday night.

A New Jersey man has sued a band that serenaded him.

## MISCELLANEOUS.

## NICOLL, THE TAILOR.

Desires to call the attention of Gentlemen to the daily arrival of New York styles of French, English and Domestic Goods from his London and New York houses.
